

PRCS252 Computer Science Integrating Project

Discord Meeting Minutes — Group J

Current meeting: On Wednesday, April the 17th, 2019, at 11.00am

Next meeting: On Wednesday, May 1th, 2019, at 11.00am

Present: Reece Drage, Gabryel-Mason Williams, Eugenio Guarino, Adam Williams

Notes:

- This time, we opted for an online group call over Discord as not all the members could be present in a real meeting
- General discussion on assignments specifications
- We checked up what we have done so far as a group
- Sprint 5 tasks are assigned as follows:
 - Gabryel: create Logout function (website); fix routes (website); manage and modify existing routes records (Controller); show personal timetable (front-end).
 - Eugenio: display purchased tickets (mobile application); starred journeys (mobile application); report writing.
 - Reece: show personal timetable (back-end); report writing.
 - Adam: integrate Paypal sandbox (mobile application).
 - We have also agreed that everyone must carry out some usability reviews for the applications

Next meeting's agenda:

- Closure meeting
- Marks assignment discussion
