PRCS252 Computer Science Integrating Project

Meeting Minutes — Group J

Current meeting: On Monday, March the 18th, 2019, at 10.00am

Next meeting: On Wedsnesday, March the 20th, 2019, at 11.00am

Present: Reece Drage, Gabryel-Mason Williams, Eugenio Guarino, Adam Williams

Notes:

- Catch-up on Sprint progress
- Reece suggested the following branches structure: the task-specific branches will be merged to a branch called 'Development' upon code completion. The 'Development' branch will be used to do the review and upon completion, it will be then merged to 'Master' branch after the sprint review has been carried out. This way we will have a more professional branches structure
- Checked what Eugenio and Reece have coded
- The Web Application could not connect to the database/could not pass connection string. We believe it's a database error and Shirley is going to fix it

Next meeting's agenda:

- Create new Sprint plan
